

Please note that Pennsylvania American Water Company will begin work to replace the main water line on Maple Street in Annville. The project will impact the roadway from the intersection of N. College Ave. to N. Weaver St. and is scheduled to occur in the summer thru fall of 2023. At the completion of the water line replacement project and as conditions allow, the roadway will be re-paved during the fall/spring of 2023/2024. During this time there will be intermittent road closures and you will not be able to park on Maple St. while work is being done.

Please observe signage posted in the affected area that will communicate road closures and prohibited parking.

Please note that Church Street, from the intersection of N. Cherry Street. to N. King Street, is scheduled to have a main water line replaced in June/July of 2023 and then be paved in late July/August of 2023. During this time there will be road closures and you will not be able to park on Church Street.

Please observe signage posted in the affected area that will communicate road closures and prohibited parking.

Please note that Ulrich Street, from the intersection of East 422 to Maple St. is scheduled to have a storm sewer replaced in July/August of 2023 and then be paved in 2024. During this time there will be road closures and you will not be able to park on Ulrich Street.

Please observe signage posted in the affected area that will communicate road closures and prohibited parking.
